

My winter holidays

First week of my winter holidays I spent at home with my family. I was playing games with my brother. I was watching 'Sonic 3' with my friends and we went ice skating. A week after my family and I went to the mountain of Triglav and we enjoyed the snow. Me and my brother tried to build an igloo, but it was late and we had to go back to hotel Pokljuka. The following day the snow was terrible for building an igloo, so me and my brother drove in a sledge. All of a sudden, there was a ramp made of snow and we went over it at the height of 40 centimeters at least. Our sledge broke a bit, but our father fixed it. When we came back to our home, me and my brother were playing video games. On Monday I was preparing for school. I enjoyed the holidays, but I wish that at least one time I could finish building the igloo.
